**Dear Hiring Manager,**

I am excited to apply for the UI/UX position. With a strong foundation in UI/UX design and a proven track record in leading design projects and crafting engaging user experiences, I am confident in my ability to contribute meaningfully to your team.

At i2 Capital, I led design initiatives, conducted UX research, and created prototypes, honing my ability to deliver user-centric solutions. My role at Curiba allowed me to specialize in design systems, color theory, and typography, further enriching my design expertise. Additionally, my experience managing social media at Torie Propaganda and beofficesbrasil sharpened my strategic thinking and communication skills, essential for collaborative environments.

Fluent in English, Spanish, and Portuguese, I bring versatility and a global perspective to every project. I thrive in dynamic settings where I can apply tools like Figma and embrace challenges to drive innovation.

I am available immediately and am eager to bring my passion for design and teamwork to your organization. I would welcome the opportunity to discuss how my skills align with your team's goals.

Thank you for considering my application.

Best regards,

**Gabriel Cunha**
